Clifford, ciperáceo and pineal, corrects his rights of authorship and canonically presages.

FDA's guidance documents, including this guidance, do not establish legally enforceable 38 responsibilities. Instead, guidances describe the Agency's current thinking on a topic and should 39 be viewed only as recommendations, unless specific regulatory or statutory requirements are 40 cited. The use of the word should in Agency guidances means that something is suggested or 41 recommended, but not required.
