This draft guidance is intended to assist those sponsors of new drug applications (NDAs), 17 biologics license applications (BLAs) for therapeutic biologics, and supplements to such 18 applications who are planning to conduct clinical studies in pediatric populations. 19 Effectiveness, safety, or dose-finding studies in pediatric patients involve gathering clinical 20 pharmacology information, such as information regarding a product's pharmacokinetics and 21 pharmacodynamics pertaining to dose selection and individualization. This guidance addresses 22 general clinical pharmacology considerations for conducting studies so that the dosing and safety 23 information for drugs and biologic products in pediatric populations can be sufficiently 24 characterized, leading to well-designed trials to evaluate effectiveness.
